One of the primary goals of this Java book is to prepare students for the AP test. Another is to prepare for competition...and in the process, learn Java. Over the years, I have seen such competition make a significant difference in the lives of many students. If a teacher is not gentle in this approach to competition you can easily "burn-out" students....especially if you continually bombard ...

The largest organisms now found on Earth can be determined according to various aspects of an organism's size, such as: mass, volume, area, length, height, or even genome size. Some organisms group together to form a superorganism (such as ants or bees), but such are not classed as single large organisms. The Great Barrier Reef is the world's largest structure composed of living entities ...

Deer live in a variety of biomes, ranging from tundra to the tropical rainforest. While often associated with forests, many deer are ecotone species that live in transitional areas between forests and thickets (for cover) and prairie and savanna (open space). The majority of large deer species inhabit temperate mixed deciduous forest, mountain mixed coniferous forest, tropical seasonal/dry ...
