Improving your BHP - Standard Engine Swaps It is often said that the cheapest way to add more power is to add more cc's. This is certainly true of the Mini - 1275cc engines are usually cheaper than extensive modifications to smaller motors, and are more tractable when giving the same amount of power.

The needs of a true competition engine are quite different than those of the engine under the hood of a typical commuter car. From the basic design needs, to the base component materials, to the sizes of the flow-related hardware, to the precision of the machining, to the capabilities of each pertinent system, very few similarities exist.
