bombardier dash 8 maintenance pdf

The DHC-8 Dash 8 is a series of turboprop-powered regional airliners, introduced by de Havilland Canada (DHC) in 1984. DHC was later bought by Boeing in 1988, then by Bombardier in 1992; the program is to be resold to Viking Air parent Longview Aviation Capital by late 2019. Powered by two Pratt & Whitney Canada PW100s, it was developed from the Dash 7 with improved cruise performance, lowered ...

Bombardier Dash 8 - Wikipedia

Scandinavian Airlines Flight 1209, a Bombardier Dash 8 Q400 with the registration LN-RDK, took off from Copenhagen Airport, Denmark, on September 9, 2007. It was on a domestic flight to Aalborg Airport. Prior to landing, the right main landing gear failed to lock and the crew circled for an hour while trying to fix the problem then preparing for an emergency landing.

Le Q400, fabriqué par Bombardier Aéronautique, est un avion destiné au transport de passagers. Appelé initialement « DHC-8-400 » lorsque fabriqué par de Havilland Canada (DHC), il a été renommé « Q400 » après l'acquisition en 1992 de DHC par Bombardier. Le Dash 8-Q400 est le plus gros appareil de la série Dash 8 (10,1 mètres plus long que le Dash 8-Q100).
