History. The Berkeley automobile was a collaboration between designer Lawrence "Lawrie" Bond and the Berkeley Coachworks factory owned by Charles Panter, which at the time was one of the largest manufacturers of caravans in Europe. It was an ideal project for Berkeley, who had developed considerable skills in the use of Glass-reinforced plastic (GRP), and were looking for something to fill the ...

### **Berkeley Cars - Wikipedia**

Industry studies show that mature fields currently account for over 70% of the world's oil and gas production. Increasing production rates and ultimate recovery in these fields in order to maintain profitable operations, without increasing costs, is a common challenge.
