Here's a book about gunsmithing that you can download as a 40MB PDF file. It's Advanced Gunsmithing by W. F. Vicery and it was published in 1940.. It's an old book but I think you may still find it useful and interesting, even if you don't own a gun, because it describes how to use many of the same machine shop tools and techniques that we're still using today.

The needs of a true competition engine are quite different than those of the engine under the hood of a typical commuter car. From the basic design needs, to the base component materials, to the sizes of the flow-related hardware, to the precision of the machining, to the capabilities of each pertinent system, very few similarities exist.
